Sweet Treats Bakery Website

1. Introduction

Sweet Treats Bakery is a simple and attractive bakery website developed using HTML and CSS. The main purpose of this project is to display bakery products such as chocolate cakes, vanilla cupcakes, chocolate cookies, and fresh pastries.

The website includes a home section, menu section, special offers, and contact details. It uses different background colors, product cards, buttons, and hover effects to create a beautiful and user-friendly design.

2. Features

1. **Attractive Header:** Displays the bakery name and a welcome message.
2. **Navigation Menu:** Provides links to Home, Our Menu, Offers, and Contact sections.
3. **Home Banner:** Displays a welcome message and an Explore Menu button.
4. **Product Display:** Shows four bakery products with emojis, descriptions, and prices.
5. **Hover Effects:** Product cards change their background color and move slightly when the user hovers over them.
6. **Special Offers:** Displays a promotional offer: Buy 2 Cupcakes and Get 1 Cookie Free.
7. **Contact Information:** Displays the bakery address, phone number, and opening hours.
8. **Attractive Design:** Uses colors, rounded corners, spacing, and shadows to improve the appearance.
9. **Footer:** Displays the bakery name and copyright information.

3. Applications

1. **Bakery Promotion:** Helps promote bakery products and special offers.
2. **Product Information:** Allows customers to view product names, descriptions, and prices.
3. **Business Website:** Can be used as a basic website for a small bakery.
4. **Customer Information:** Provides contact details and opening hours.

5. **Learning Web Development:** Helps students understand HTML structure, CSS styling, navigation links, and hover effects.

4. Technologies Used

- **HTML:** Used to create the structure and content of the website.
- **CSS:** Used to style the website with colors, layouts, spacing, shadows, and hover effects.
- **JavaScript:** A small inline JavaScript action is used to navigate to the menu when the Explore Menu button is clicked.

5. Conclusion

The Sweet Treats Bakery website is a beginner-friendly web development project that presents bakery products in an organized and attractive way. It demonstrates the practical use of HTML, CSS, and a small JavaScript action. This project can be further improved by adding real product images, an online ordering system, and a payment facility.
