WanderWorld Travel Agency Website

1. Introduction

WanderWorld Travel Agency is an attractive travel website developed using HTML and CSS. The main purpose of this project is to display popular tourist destinations and holiday packages to help users explore different travel options.

The website includes a home section, popular destinations, special holiday packages, and contact information. It presents destinations such as Manali, Goa, and Araku Valley, along with package prices and travel durations. The website uses attractive colors, gradient backgrounds, buttons, cards, and hover effects to create a user-friendly design.

2. Features

1. **Attractive Header:** Displays the WanderWorld name and navigation menu.
2. **Navigation Menu:** Provides links to Home, Destinations, Packages, and Contact sections.
3. **Welcome Banner:** Displays a travel-related welcome message and buttons to explore destinations and packages.
4. **Popular Destinations:** Displays Manali, Goa, and Araku Valley with descriptions and trip durations.
5. **Holiday Packages:** Presents three packages: Nature Escape, Mountain Adventure, and Beach Holiday.
6. **Package Prices:** Displays sample prices for each holiday package.
7. **Enquiry Buttons:** Allows users to navigate to the contact section to enquire about packages.
8. **Contact Information:** Displays the agency's email address, phone number, and office hours.
9. **Email Enquiry:** Provides a button that opens the user's email application to send an enquiry.
10. **Hover Effects:** Adds interactive visual effects to buttons, navigation links, and destination cards.
11. **Responsive Design:** Uses a media query to adjust the header and banner layout for smaller screens.
12. **Attractive Design:** Uses gradient backgrounds, colors, rounded corners, shadows, and spacing to improve the website's appearance.

13. **Footer:** Displays the agency name, copyright information, and travel slogan.

3. Applications

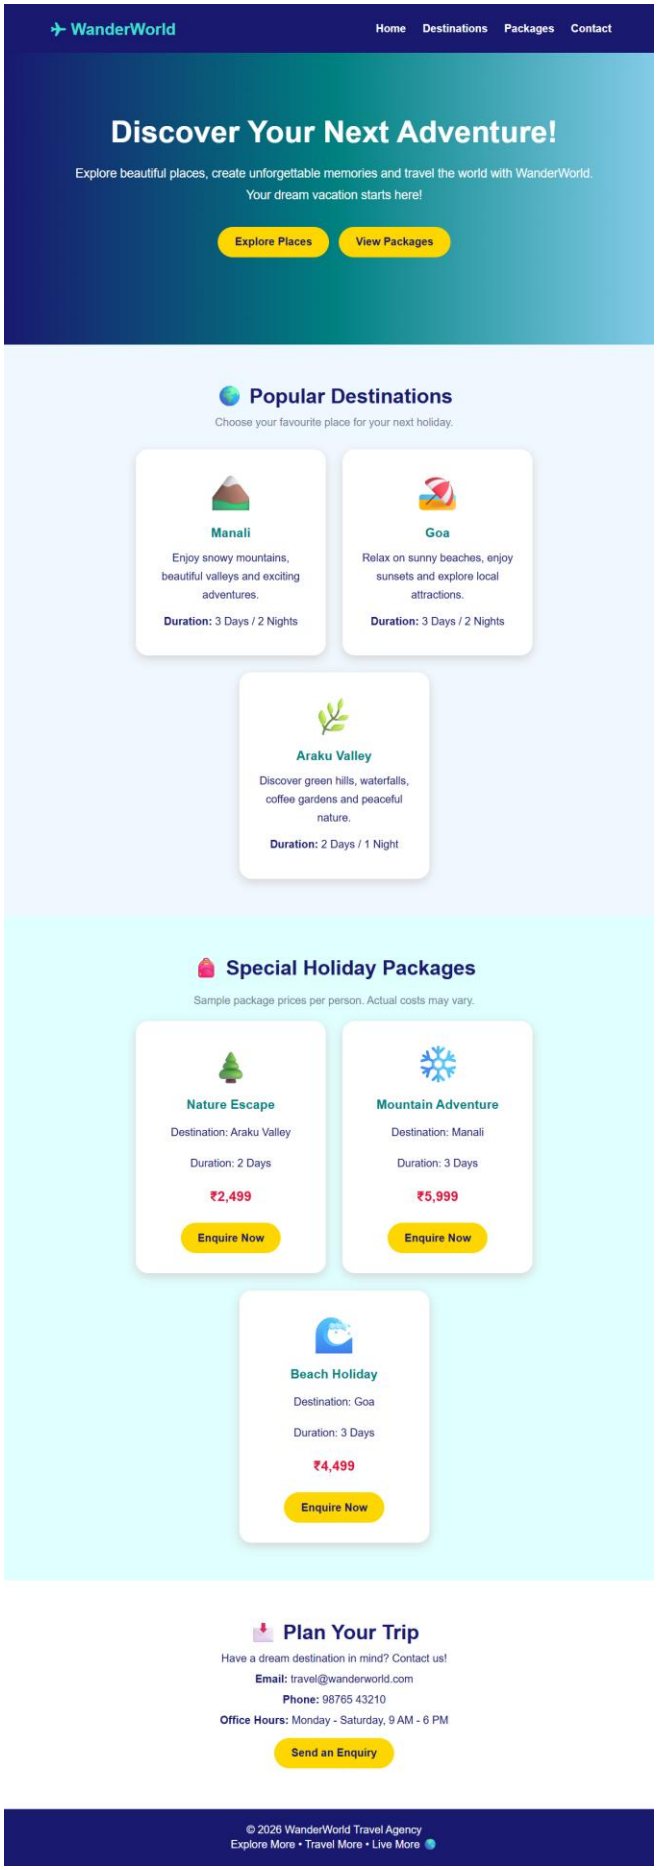

1. **Travel Promotion:** Helps promote tourist destinations and holiday packages.
2. **Destination Information:** Provides information about popular tourist places and trip durations.
3. **Holiday Package Display:** Allows users to compare sample packages and their prices.
4. **Customer Enquiries:** Helps interested customers find contact details and send email enquiries.
5. **Travel Agency Website:** Can serve as a basic website for a travel agency.
6. **Learning Web Development:** Helps students understand HTML, CSS, navigation links, responsive design, and hover effects.

4. Technologies Used

- **HTML:** Used to create the structure and content of the website.
- **CSS:** Used to style the website with colors, layouts, gradient backgrounds, shadows, and hover effects.
- **CSS Media Queries:** Used to adjust the website layout for smaller screens.
- **HTML Anchor Tags:** Used for navigation between sections and opening the email application through a mailto link.

5. Conclusion

The WanderWorld Travel Agency website is a beginner-friendly web development project that presents tourist destinations and holiday packages in an attractive and organized manner. It demonstrates the practical use of HTML and CSS to create a user-friendly and responsive website. The project can be improved further by adding online booking, payment facilities, customer reviews, and live travel information.PROJECT DOCUMENTATION
